

The Global Education Course for Vascular Medicine and Intervention
SEPTEMBER 11-14, 2017 • WYNN LAS VEGAS

Dear Colleague:

The 15th annual VIVA Symposium is being held at Wynn Las Vegas, Tuesday, September 12 – Thursday, September 14, with pre-courses on Monday, September 11, 2017.

VIVA is a three day educational conference which serves as the premier educational forum for physicians interested in vascular medicine and interventional therapy. We bring together major thought leaders in interventional cardiology, vascular surgery, vascular medicine, interventional radiology, neuroradiology and cardiothoracic surgery, and our educational goal continues to address the learning needs of both the beginner and the more experienced interventionalist in a truly interactive teaching environment.

Additionally, the 7th annual VEINS Symposium is being held at Wynn Las Vegas, Sunday, September 10 – Monday, September 11, 2017.

The merger of The VEINS (Venous Endovascular Interventional Strategies) with VIVA allows attendees to get the entire breadth of vascular education and intervention, including arterial, lymphatic, thrombotic, and venous disease. Providing a unique multispecialty environment, this day and one half interactive course will offer a comprehensive analysis of the critical issues facing vascular specialists with an interest in acute and chronic venous diseases today. The VEINS includes extended hands-on training with live patients and ample time for discussion allowing vascular specialists to better manage challenging patients.

For the latest conference information, visit our web site at <http://vivaphysicians.org/>.

We look forward to an exciting meeting in Las Vegas.

Sincerely,

A handwritten signature in black ink that reads 'Rebecca Hall'.
