

## THURSDAY, MAY 27

**Moderator:** Ehrin Armstrong, MD

**Panelists:** Bryan Fisher, MD; Steven Henao, MD; Jun Li, MD

### Access and Crossing for Complex Lesions

**7:00 – 7:02pm** Introduction  
**Ehrin Armstrong, MD**

**7:02 – 7:10pm** Two Extremes: What Is the Role of Radial Access in CLTI Intervention? When Do I Use Retrograde SFA Access?  
**George Adams, MD**

**7:10 – 7:18pm** How I Get Tibiopedal Access With Efficiency and Accuracy: Tips and Tricks  
**Brian DeRubertis, MD**

**7:18 – 7:26pm** Wire Selection and Wire Escalation for Infrapopliteal CTOs  
**Lieven Maene, MD**

**7:26 – 7:33pm** Panel Discussion

### Complex Cases

*Each case will be followed by a panel discussion*

**7:38 – 7:52pm** Tibiopedal Access with Re-Entry  
**Shant Vartanian, MD**

**7:52 – 8:06pm** Radial Access for Complex Disease  
**Jun Li, MD**

**8:06 – 8:20pm** Below-the-Ankle Pedal Arch Reconstruction  
**Robert Beasley, MD**

### What Is Your Guide Wire Algorithm? Key Strategies for CLTI Procedures

*Presented by Abbott*

**8:25 – 9:10pm** Ehrin Armstrong, MD; Brian DeRubertis, MD

## THURSDAY, JUNE 3

**Moderator:** Tony Das, MD

**Panelists:** Sean Lyden, MD; D. Christopher Metzger, MD; Saher Sabri, MD

### Dealing with Calcium

**7:00 – 7:02pm** Introduction  
**Tony Das, MD**

**7:02 – 7:10pm** How Does Severe Calcification Affect Long-Term Outcomes After Drug-Coated Balloons and Stents in the SFA? Do Pedal Calcium and the MAC Score Affect Outcomes?  
**Sahil Parikh, MD**

**7:10 – 7:18pm** Specialty Balloons, Atherectomy, and IVL: What Are the Comparative Outcomes for Treating Calcified Lesions?  
**Venita Chandra, MD**

**7:18 – 7:26pm** Advanced Calcium Crossing: Picking, Sticking, & DEKIAP Techniques  
**Steven Kum, MD**

**7:26 – 7:33pm** Panel Discussion

### Complex Cases

*Each case will be followed by a panel discussion*

**7:38 – 7:52pm** Crack and Pave Technique for a Severely Calcified SFA  
**Peter Soukas, MD**

**7:52 – 8:06pm** Highly Calcified Infrapopliteal CTO  
**Leigh Ann O'Banion, MD**

**8:06 – 8:20pm** Complex Crossing and Re-Entry of a Calcified CTO  
**Prakash Krishnan, MD**

### Conquer Calcium with Next-Generation Drug-Eluting Technology and the Future of BTK

*Presented by Boston Scientific*

**Moderator:** Michael R. Jaff, DO

**8:25 – 8:50pm** Ehrin Armstrong, MD; Sonya Noor, MD; Robert Lookstein, MD, MHCDL

## THURSDAY, JUNE 10

**Moderator:** Peter A. Schneider, MD

**Panelists:** Venita Chandra, MD; John Laird Jr, MD; Robert Lookstein, MD, MHCDL

### Optimizing Infrapopliteal Angioplasty

**7:00 – 7:02pm** Introduction  
**Peter A. Schneider, MD**

**7:02 – 7:10pm** Is There an Algorithm for Optimizing Infrapopliteal Angioplasty?  
**Ehrin Armstrong, MD**

**7:10 – 7:18pm** What Emerging Technologies Could Change Our Approach to Infrapopliteal Disease?  
**Peter A. Schneider, MD**

**7:18 – 7:26pm** How Does IVUS Change My Approach to Infrapopliteal Angioplasty?  
**Osamu Iida, MD**

**7:26 – 7:33pm** Panel Discussion

### Complex Cases

*Each case will be followed by a panel discussion*

**7:38 – 7:52pm** Management of Severe Post-Angioplasty Dissection  
**Ramon Varcoe, MBBS, MS, PhD**

**7:52 – 8:06pm** Combined Infrapopliteal and Below-the-Ankle Angioplasty  
**Uei Pua, MD**

**8:06 – 8:20pm** Atherectomy to Facilitate Crossing and Subsequent Angioplasty  
**Katherine Schuetze, MD**

We'd like to gratefully acknowledge the following series supporters:

### Gold Sponsors

**Boston Scientific  
Cardiovascular Systems, Inc.  
Philips**

### Silver Sponsors

**BD  
Medtronic  
Shockwave**
